REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 11, 12, 15 and 16 are allowable over the prior art of record because the prior art of record does not teach a detecting device for detecting disappearance of plasma; and first and second variable inductance elements, wherein the first variable inductance element comprises a first main winding, a first control winding magnetically coupled to the first main winding, wherein the second variable inductance element comprises a second main winding, and a second control winding magnetically coupled to the first main winding, wherein the first and second main windings are controlled based on a magnitude of direct current flowing through the first and second control windings respectively, wherein the RF source is connected to the plasma generator via the first main winding and the RF source is connected to ground voltage via the second main winding, wherein the plasma generator generates plasma by RF voltage outputted from the RF source, and wherein the disappearance of the plasma is detected by the detecting device, the direct current flowing through the second control winding is decreased in order to increase the inductance of the second main winding larger than its inductance when plasma is maintained, and then, the RF voltage outputted to the plasma generator is increased.

The claims are allowed based on the fact that the prior art does not teach the detection by the detector to detect the disappearance of the plasma wherein when the disappearance of the plasma is detected by the detecting device, the direct current flowing through the second control winding is decreased in order to increase the

inductance of the second main winding larger than its inductance when plasma is maintained, and then, the RF Voltage outputted to the plasma generator is increased.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
